

Confirmation 2021

CO₂-Footprint

of
Company:

Erbe Elektromedizin GmbH

Here by we confirm that the company given above, by entrusting us with **65,19 Tons** of commercial waste in 2021, reduced their carbon-footprint by:

44,98 to (44.982 Kg) CO₂;eq

The expert Prof. Dr-Ing. Scheffold has calculated, that by sorting and processing of their waste to high-valency secondary or substitute fuels, incl. all pre- and post-transportation a benefit of

690 kg CO₂;eq

per ton has been realized.
